OUR PROLOCO

Since 1964 the Pro loco Castro promotes local culture with events, festivals and activities. It represents a key point of reference for the village of Castro and beyond. Thanks to the dedication of its volunteers, it offers the opportunity to discover places, traditions, and typical products of the area: a true and important reality for those who want to experience the authentic heart of Lake Iseo

THE VILLAGE OF CASTRO

The village of Castro is known for its picturesque historic center with narrow streets and stone houses that create an authentic atmosphere reminiscent of the past. Among the main attractions there is the hill of San Lorenzo with its homonymous church from which you can contemplate a unique view of the lake and the mountains. Then there is the Orrido, a geological formation with rock walls overlooking the lake, and the harbor, where you can relax or embark on the local ferry. Thanks to its magnificent location between the mountains and the lake, Castro is ideal for nature hikes and perfect for those seeking tranquility away from the chaos.
